## EDUCATION

- |  |   |
|--|---|
| • <b>B.E. Computer Science and Engineering (Cyber Security)</b><br>Chennai Institute of Technology; CGPA: 9.12 (till 3rd semester) | Chennai, Tamil Nadu<br>Sept 2023 – 2027 |
| • <b>12th CBSE Higher Secondary Education</b><br>Tvs Academy Hosur; Marks: 472/500; Percentage: 94.4%                              | Hosur, Tamil Nadu<br>2023               |
| • <b>10th CBSE Education</b><br>Tvs Academy Hosur; Marks: 422/500; Percentage: 84.4%   | Hosur, Tamil Nadu<br>2021               |

## SKILLS

- **Languages:** C++, Java, Python, SQL
- **Full Stack Development:** Next.js, Django, Node, Express, React, Tailwind CSS
- **Database:** PostgreSQL, MySQL
- **Other Skills:** Robotics Process Automation(RPA), Mendix
- **Interpersonal Skills:** Communication, Leadership, Critical Thinking

## INTERNSHIP EXPERIENCE

- |  |                                |
|--|--------------------------------|
| • <b>Project Trainee (Titan Company Limited)</b>   | <b>Nov 2024 – January 2025</b> |
| ◦ Developed an ID Requisition Portal and a Blog Application, improving workflow automation and content management. |                                |
| ◦ Utilized Mendix, Django, Next.js, and PostgreSQL to create scalable web applications.                            |                                |
| ◦ Enhanced internal process efficiency and facilitated seamless team communication.                                |                                |
| • <b>Project Trainee (Titan Company Limited)</b>   | <b>May 2024 - June 2024</b>    |
| ◦ Acquired expertise in Robotic Process Automation (RPA) and implemented automation solutions.                     |                                |
| ◦ Worked with industry-leading RPA tools, applying automation best practices to real-world use cases.              |                                |
| ◦ Collaborated with professionals to optimize business processes through automation.                               |                                |

## PROJECTS

- |   |   |
|---|---|
| • <b>Blog Application (Next.js, Django, Tailwind CSS)</b>   |  /Blog Application |
| ◦ Developed a full-stack blog platform with secure user authentication and role-based access control. |   |
| ◦ Enabled post creation, editing, and deletion with real-time content updates                         |   |
| ◦ Integrated a decoupled architecture, optimizing performance and user experience.                    |   |
| • <b>Password Manager (Next.js, Node, Express, Tailwind CSS)</b>                                      |  /Password Manager |
| ◦ Designed a secure password manager with encryption and user-friendly interface.                     |   |
| ◦ Implemented password generation, editing, and deletion functionalities.                             |   |
| ◦ Ensured strong encryption standards for enhanced data security.                                     |   |
| • <b>ID Requisition Portal (Mendix)</b>   |   |
| ◦ Built an employee ID request management system with automated approval workflows.                   |   |
| ◦ Integrated role-based access control, request tracking, and dynamic reporting.                      |   |
| ◦ Improved efficiency in ID card processing through streamlined digital workflows.                    |   |

## CERTIFICATIONS

- |                                      |   |                                    |
|--------------------------------------|---|------------------------------------|
| ◦ Certified in Cyber Security (ISC2) | ◦ DBMS (NPTEL)                          | ◦ Tools of Trade(coursera)         |
| ◦ AWS Cloud Practitioner (AWS)       | ◦ Networking Essentials (Cisco)         | ◦ Bot Developer(Automation 360)    |
| ◦ Manage Security Risks(coursera)    | ◦ Connect and protect(coursera)         | ◦ Business Analyst(Automation 360) |
| ◦ Cybersecurity Essentials (Cisco)   | ◦ Introduction to Cybersecurity (cisco) |                                    |

## ACHIEVEMENTS

- Solved 300+ problems on LeetCode, enhancing problem-solving and algorithmic thinking.
- Code for Good 2025 Finalists.
- Finalist in First-Year, Second-Year Intra Code-a-Thon, demonstrating competitive programming skills.

## LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- Vice President of College Club – Organized technical workshops and events
- Workshop Organizer – Conducted sessions on Cybersecurity, Dark Web, and AI, providing insights into emerging tech trends.
- High School Volunteer – Led awareness programs on child marriage prevention.
